

How many articles have you published involving hydrological modeling of Swiss catchments?

(a)

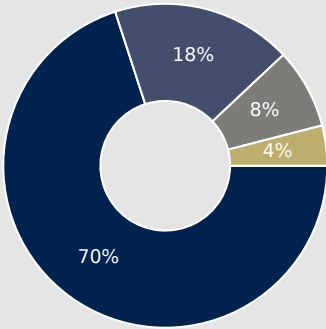

(b) The articles of which you are the first author are related to the work done:

- mainly at a single institute
- as a collaboration between institutes
- at different institutes (author moved)

(c) The majority of these articles involve:

- the same hydrological model
- two hydrological models
- multiple independent models
- a modular framework

(d) Involvement in model development
